

Tips for College Students

Start of the Semester

- Login to Canvas and find each of your classes' syllabus. Read them all the way through and write down any questions you need to clarify with the professor. Make note of all the important homework, quiz, test, and paper deadlines in your calendar.
- Plan to always arrive 5-minutes early to class. Making a good impression is very important in college.
- Introduce yourself to your professor after class or if you are taking a class online over Zoom or via email. Getting to know your professor is important in college. You will want to establish a good relationship with one or two in order to ask for recommendations in the future.
- Use an electronic calendar and to-do list app to keep track of all of your activities (personal, academic, and athletic).

During the Semester

- Always turn in your class work - even if it is late.
- Be proactive about your learning. Use the "Early Alert" system. When you RECOGNIZE a challenge in class SEEK OUT a solution and IMPLEMENT a change. Repeat this until you get the grade you are looking for.
- Use an electronic calendar and to-do list app to keep track of all of your activities (personal, academic, and athletic).
- Don't drop a class unless you speak with Coach Marco and the athletic counselor.

When in doubt, contact Coach Marco about any questions you have concerning college. He is happy to help!
